LOS ANGELES COUNTY MARINA DEL REY WATER SYSTEM EMERGENCY REPAIR OF 8-INCH-DIAMETER WATER MAIN ON ADMIRALTY WAY

On March 4, 2005, a water main leak occurred on Admiralty Way, fronting the Marina City Club, in Marina del Rey. Water from the leak flooded the Marina City Club's parking structure. W. A. Rasic Construction Company was called to assist District's staff to repair the leak. After the excavation of the water main, the contractor determined that the leak was on an 8-inch-diameter water main that belongs to the Marina City Club. We informed the manager of the Marina City Club and he agreed to reimburse the Marina del Rey Water System for the cost of the repairs. The repair work was completed on March 5, 2005, at a total cost of \$38,732.42.

W. A. Rasic Construction Company is one of five as-needed, on-call emergency contractors, with a contract approved by your Board on December 1, 2003. We committed to reporting to your Board all emergency repairs carried out under these contracts.
